Product Description

Anti-shatter Reflective Shield Glass 0.3mm Thickness Preferred Choice

Product Description:

Reflective Tempered Glass:

Reflective Tempered Glass is a high-tech, advanced glass product designed to provide superior security and protection from external threats. This glass is clear in color and is designed with UV protection, making it ideal for outdoor applications. It is also easy to install and requires minimal maintenance, making it a cost-effective and efficient security solution. Its high transparency and 0.3mm thickness ensure that it won't impede the view of the property, while its reflective nature provides a deterrent to potential trespassers. This Reflective Thermal Glass is the perfect choice for any security application, providing superior protection and peace of mind.

Features:

Tempered Safety Glass: Reflective Tempered Glass

Applications:

Reflective Tempered Glass is a heat-resistant glass that is perfect for a wide range of applications and scenes. It is highly transparent, with a light transmission of 99% and UV protection. It is also very easy to install and offers universal compatibility. This heat-strengthened glass is a great reflective shield that is heat-resistant and extremely durable. It can be used in both residential and commercial settings, providing a secure and protective barrier for all your projects.

Reflective Tempered Glass is suitable for a variety of indoor and outdoor applications. It can be used to create a unique and stylish look for balconies, terraces, and patios, as well as for windows, showers, and other areas of your home. It is also great for commercial projects, such as restaurants, hotels, and offices, where it can provide a modern, sophisticated look. Additionally, it can be used in a range of industrial settings, such as factories, warehouses, and garages. With its high light transmission and UV protection, it is suitable for all climates and conditions.

Reflective Tempered Glass is an ideal choice for anyone looking for a durable, heat-resistant glass that can provide protection and style. It offers easy installation, universal compatibility, and high transparency, making it an ideal choice for a wide range of applications and scenes.

Customization:

Customized Reflective Tempered Glass

Our Reflective Tempered Glass has a hardness rating of 9H, ensuring superior scratch protection. The glass offers a 1-year warranty and is compatible with almost any device. With a light transmission of 99%, you can enjoy a crisp, clear image on your screen. Our highly reflective glass is heat-resistant and provides excellent protection against impact damage. Our reflective thermal glass is the perfect addition to any device.

Packing and Shipping:

Packaging and Shipping

Reflective Tempered Glass is carefully packaged in heavy-duty cardboard boxes to ensure safe delivery. The packaging also includes bubble wrap and other forms of cushioning materials. Upon delivery, the items should be inspected carefully for any signs of damage. Shipping of the Reflective Tempered Glass is done through reliable and trusted courier services. The delivery time can vary depending on the destination and the size of the order. All orders are tracked and monitored to ensure safe and timely delivery.
