size	upon to request	
HS Code	7003200000	
Brand	Rise	

reinforced with a wire mesh interlayer for added strength and fire resistance. It is commonly used in applications where safety and security are paramount, such as fire-rated doors, windows, and partitions. The wire mesh holds the glass together when broken, preventing shards from scattering and providing a barrier against flames. Wire glass meets stringent safety standards and offers peace of mind in high-risk environments.
