Product Description

Construction Reflective Float Glass with Colors Blue/Green/Bronze/Yellow

Company

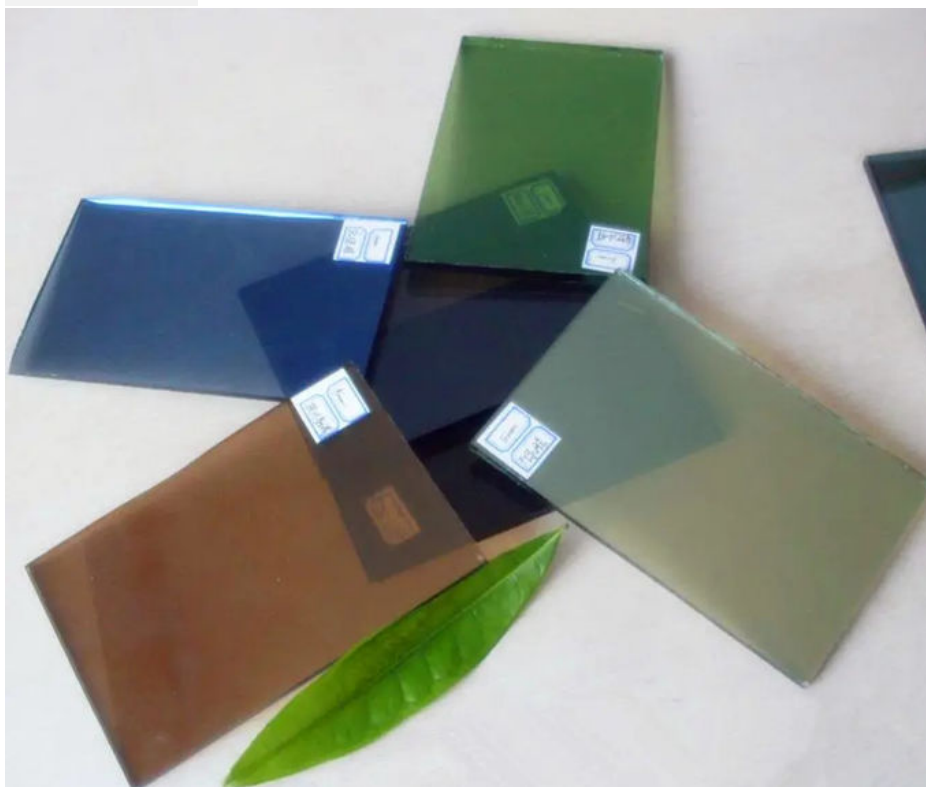

Profile

we are well-known glass processing manufacturers producing different kinds of customized building glass, including tempered glass, laminated glass, insulated glass, decorative glass, etc. We offer one-stop services. Welcome to customizing your design!

Product Description

Reflective coated glass: a glass product with a proportionate reflective coating applied to one side. It reduces glare, blocks a significant amount of solar heat, and enhances energy efficiency. Ideal for windows, facades, and skylights, the reflective coating provides privacy, aesthetics, and superior solar control, contributing to a comfortable and sustainable environment.
