Product Description

Factory Price/Decorative Reflective Glass with Transmittance

Company

Profile

we are well-known glass processing manufacturers producing different kinds of customized building glass, including tempered glass, laminated glass, insulated glass, decorative glass, etc. We offer one-stop services. Welcome to customizing your design!

Product Description

Reflective coated glass: a glass product featuring a specialized coating applied to one side, designed to reflect a significant portion of incoming light. It reduces glare, blocks UV radiation, and improves energy efficiency by minimizing solar heat gain. Widely used in windows, facades, and architectural applications, reflective coated glass offers both aesthetic appeal and functional benefits, creating comfortable and energy-efficient living and working spaces.
