Product Description

High Quality Hot Sale Reflective Glass for Construction

Company

Profile

we are well-known glass processing manufacturers producing different kinds of customized building glass, including tempered glass, laminated glass, insulated glass, decorative glass, etc. We offer one-stop services. Welcome to customizing your design!

Product Description

Reflective coated glass: a glass product with a specialized coating applied to one side, designed to reflect a substantial amount of incoming light. It reduces glare, blocks harmful UV radiation, and enhances energy efficiency by minimizing solar heat gain. Widely used in windows, facades, and architectural applications, reflective coated glass offers a sleek appearance, improved comfort, and reduced reliance on artificial cooling, making it an ideal choice for creating sustainable and visually appealing environments.
