- Max. Size: 2440mm*3660mm
- Highlight: 2440mm Tempered Laminated Safety Glass, 3660mm Tempered Laminated Safety Glass, 300mm tempered glass safety glass

Product Description

Product Description:

Tempered Laminated Safety Glass is a high-performance double safety glass composed of two or more pieces of glass laminated with one or more layers of a special interlayer material. It is designed to provide superior safety and security for a wide range of applications, including building, automotive, and more. This type of glass is extremely tough and provides exceptional resistance to impact, breakage, and penetration. It also offers excellent sound insulation, UV protection, and temperature regulation. The glass can be tempered to increase its strength and durability and is available in a variety of sizes and shapes, including round, oblong, and more, with a minimum size of 300mm*300mm. The glass is available with a variety of surface treatments, including frosted, acid etched, and more.

Features:

Product Name: Tempered Laminated Safety Glass

Surface Treatment: Frosted, Acid Etched, Etc.

Max. Size: 2440mm*3660mm

Shape: Flat, Curved, Bent, Etc.

Notch: C, U, Etc.

Edge Work: Polished, Beveled, Etc.

Security Laminated Glass: Yes

Safety Laminated Glass: Yes

Laminated Security Glass: Yes

Color	Clear, Ultra Clear, F-Green, Bronze, Grey, Blue, Etc.
Shape	Flat, Curved, Bent, Etc.
Warranty	10 Years
Surface Treatment	Frosted, Acid Etched, Etc.

Applications:

RISE brand tempered laminated safety glass is the perfect choice for safety and security applications. With a minimum order quantity of 1 container, this durable glass is available in a variety of thicknesses ranging from 2.28mm to 19mm. The glass can be manufactured with polished, beveled, or other edge work, and is available in clear, ultra clear, F-green, bronze, grey, blue, and other colors. The glass is certified by CE, ISO, and SGS, and can be laminated with PVB, SGP, EVA, or other materials for extra protection. Customers can be assured of the quality of this product, as it is backed by a 10-year warranty.

This tempered laminated safety glass is perfect for a variety of applications, providing an extra layer of security. The glass can be used in commercial and residential buildings, providing an extra layer of protection against intruders. It can also be used in automobiles, providing passengers with an extra layer of protection from the elements. The glass can also be used in banks, museums, and other locations where security is a top priority. In addition, the glass has a wide range of uses in furniture, cabinets, doors, and more.

RISE tempered laminated safety glass is strong, secure, and reasonably priced. With its superior strength, durability, and affordability, it is the perfect choice for a variety of safety and security applications. Customers can rest assured that they are getting a quality product that will last for years to come.

Our team of experts are available to answer your questions and provide advice on how to choose the right product for your needs. We provide installation and maintenance services to ensure your safety glass is always in top condition. We also offer warranty services to guarantee your satisfaction with the product. Our customer service team is available 24/7 to provide assistance with any issue you may have. We will work with you to ensure your product meets all safety standards and is installed correctly. If you have any questions or concerns, please do not hesitate to contact us.

Packing and Shipping:

Tempered Laminated Safety Glass should be packaged and shipped with the utmost care. The glass should be wrapped in thick layers of bubble wrap and placed in a cardboard box or crate that is strong enough to withstand the rigors of shipping. All boxes or crates should be clearly labeled with the contents and the destination. If possible, the glass should be secured with additional packing material such as foam, plastic, or cushioning material. The box or crate should be sealed securely with packing tape to ensure the glass is not damaged in transit.
