

Smooth Rough Clear Tempered Laminated Glass 3300mmx13000mm

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: RISE
- Certification: CE,ISO, SGS
- Model Number: Deep processed glass
- Minimum Order Quantity: 1 container
- Price: USD1-99/
- Packaging Details: wooden case
- Delivery Time: 7 days
- Payment Terms: T/T, L/C, D/A, D/P, Western Union, MoneyGram
- Supply Ability: 500 Tons Per Day

Product Specification

- Product Name: Clear Tempered Laminated Glass
- Surface: Smooth, Rough
- Safety: High
- Size: Max Size: 3300mm*13000mm
- UV Protection: High
- Transparency: High
- Sound Insulation: High
- Shape: Flat
- Thickness: 6.38mm
- Highlight: Clear Tempered Laminated Glass 3300mm,
Clear Tempered Laminated Glass 13000mm,
smooth 6.38 laminated glass

Product Description:

Clear Tempered Laminated Glass, also known as Laminated Safety Glass or Laminated Clear Glass, is a type of glass made by laminating two or more layers of glass and an interlayer of polyvinylbutyral (PVB). It is a flat glass with high hardness, high fire resistance, and high UV protection. Clear Tempered Laminated Glass provides superior protection against breakage, impact, and security threats. It is also the perfect choice for those who want to preserve the appearance of their windows, doors, and other building elements while ensuring safety.

Features:

- Product Name: Clear Tempered Laminated Glass
- Size: Max Size: 3300mm*13000mm
- Thickness: 3mm-19mm
- Fire Resistance: High
- Impact Resistance: High
- Shape: Flat
- Highly Durable: Laminated Clear Tempered Glass
- Versatile: Tempered Laminated Glass

Technical Parameters:

Property	Value
Shape	Flat
Sound Insulation	High
Surface	Smooth, Rough
Edge Work	Flat Edge, Round Edge, Beveled Edge, Polished Edge, Etc.
Fire Resistance	High
Heat Resistance	High
Color	Clear
Hardness	High
Product Name	Clear Tempered Laminated Glass
Safety	High

Applications:

RISE Clear Tempered Laminated Glass has high UV protection and is available in a variety of thicknesses ranging from 3mm to 19mm. It is made of deep processed glass and is known for its high impact resistance, making it a great choice for safety applications. The surface is smooth and the color is clear. It is certified by CE, ISO and SGS. This glass is perfect for use in commercial buildings, schools, and hospitals, providing high safety standards. Its minimum order quantity is one container and the price is USD1-99/ . The packaging is wooden case and delivery time is 7 days. Payment terms include T/T, L/C, D/A, D/P, Western Union, MoneyGram. The supply ability is 500 tons per day.

Customization:

- Clear Tempered Laminated Glass
- Brand Name: RISE
- Model Number: Deep processed glass
- Place of Origin: CHINA

Size: Max Size: 3300mm*13000mm

Heat Resistance: High

Transparency: High

Fire Resistance: High

Clear Tempered Laminated Glass is a type of safety tempered glass with a clear laminate layer in between two or more pieces of glass. It is highly resistant to fire, UV rays, and heat, and provides high transparency. The glass is available in maximum sizes of 3300mm*13000mm, making it ideal for large window applications. It is certified CE, ISO, and SGS, and is available with a minimum order quantity of 1 container.

Support and Services:

Clear Tempered Laminated Glass offers a range of technical support and services, including:

Installation guidance

Telephone and email assistance

On-site technical support

Product replacement

Customization for special needs

Packing and Shipping:

Clear Tempered Laminated Glass should be packaged and shipped to ensure maximum safety. The glass should be wrapped in a protective material, such as bubble wrap, and placed into a cardboard box. The box should be large enough to fit the glass comfortably with enough room to add more material for cushioning. The box should then be sealed with packing tape. It is important to label the box as fragile glass and mark the box with arrows to indicate the proper upright orientation. The box should then be placed in a larger box with more cushioning material, such as foam or Styrofoam, on all sides.

FAQ:

Q: What is Clear Tempered Laminated Glass?

A: Clear Tempered Laminated Glass is a kind of deep processed glass which is produced by combining two pieces of tempered glass with a plastic interlayer in between them. It is usually used as a safety glazing material.
