#### Basic Information

- Place of Origin: CHINA
- Brand Name: RISE
- Certification: CE,ISO, SGS
- Model Number: Deep processed glass
- Minimum Order Quantity: 1 container
- Price: USD1-99/
- Packaging Details: wooden case
- Delivery Time: 7 days
- Payment Terms: T/T, L/C, D/A, D/P, Western Union, MoneyGram
- Supply Ability: 500 Tons Per Day

#### Product Specification

- Surface Treatment: Frosted, Acid Etched, Etc.
- Min. Size: 300mm\*300mm
- Max. Size: 2440mm\*3660mm
- Hole: Round, Oblong, Etc.
- Color: Clear, Ultra Clear, F-Green, Bronze, Grey, Blue, Etc.
- Shape: Flat, Curved, Bent, Etc.
- Warranty: 10 Years
- Thickness: 2.28mm-19mm
- Highlight: **tempered laminated safety glass 2.28mm, tempered laminated safety glass 19mm, polished tempered glass laminated glass**

## Product Description

### Product Description:

Tempered Laminated Safety Glass is a highly secure and durable glass product with a wide range of applications including building and automotive. It is composed of two or more layers of glass with a polymer interlayer that securely bonds them together. This construction ensures that the glass remains strong even if it is broken and prevents the spread of broken pieces, making it an ideal choice for high security areas. The glass can be customized with different hole shapes including round and oblong, and a variety of surface treatments such as frosted and acid etched, as well as different edge work like polished and beveled. Tempered Laminated Safety Glass is the perfect choice for anyone looking for maximum safety and security.

We provide a warranty for all of our products.

We provide repair and replacement services for any faulty products.

We offer training sessions for installers and contractors.

XYZ Glass is dedicated to providing superior customer service and support for all of our Tempered Laminated Safety Glass products.

## Packing and Shipping:

Packaging and Shipping

Tempered Laminated Safety Glass should be packaged and shipped with the utmost care and attention to detail. All glass should be inspected for any flaws or defects before shipping. If any damage is noticed, the glass should not be shipped.

The glass should be wrapped in bubble wrap or other protective material. This will prevent any damage to the glass during transit and handling. Once wrapped, the glass should be placed in a heavy duty cardboard box or other suitable container. The box should be sealed with strong packing tape. It is important to label the box clearly with the contents and the destination address.

When shipping Tempered Laminated Safety Glass, it is important to use a reputable courier or freight company. The glass should be shipped with insurance to cover any potential damage. It is also important to ensure that the courier or freight company is aware of the fragile nature of the glass.
