

F-Green Tempered Laminated Safety Glass For Building Applications

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: RISE
- Certification: CE, ISO, SGS
- Model Number: Deep processed glass
- Minimum Order Quantity: 1 container
- Price: USD1-99/
- Packaging Details: wooden case
- Delivery Time: 7 days
- Payment Terms: T/T, L/C, D/A, D/P, Western Union, MoneyGram
- Supply Ability: 500 Tons Per Day

Product Specification

- Application: Building, Automotive, Etc.
- Notch: C, U, Etc.
- Edge Work: Polished, Beveled, Etc.
- Hole: Round, Oblong, Etc.
- Min. Size: 300mm*300mm
- Surface Treatment: Frosted, Acid Etched, Etc.
- Thickness: 2.28mm-19mm
- Color: Clear, Ultra Clear, F-Green, Bronze, Grey, Blue, Etc.
- Highlight: **u notch Tempered Laminated Safety Glass, 2.28mm Tempered Laminated Safety Glass, 19mm safety laminated glass**

Product Description

Product Description:

Tempered Laminated Safety Glass is an ideal choice for safety and security applications. It is produced by bonding two or more sheets of glass together with a flexible interlayer, which is usually made of PVB, SGP or EVA. It is a type of high-strength safety glass that is capable of withstanding impact from external force and protects against flying debris and broken glass. This type of glass has a minimum dimension of 300mm*300mm and offers various edge work options like polished and beveled. It also offers various notch options like C, U and so on. The glass is available in a range of thickness ranging from 2.28mm to 19mm. Tempered Laminated Safety Glass is an ideal choice for safety and security applications as it provides superior safety and security features.

Features:

Laminated Safety Glass: Tempered Laminated Safety Glass with Hole in Round, Oblong, Etc.

Security Tempered Glass: Tempered Laminated Safety Glass for Building, Automotive, Etc.

Laminated Security Glass: Tempered Laminated Safety Glass with Min. Size of 300mm*300mm, Thickness of 2.28mm-19mm, and 10 Years Warranty.

Technical Parameters:

Property	Specifications
Lamination	PVB, SGP, EVA, Etc.
Edge Work	Polished, Beveled, Etc.
Color	Clear, Ultra Clear, F-Green, Bronze, Grey, Blue, Etc.
Notch	C, U, Etc.
Application	Building, Automotive, Etc.
Min. Size	300mm*300mm
Shape	Flat, Curved, Bent, Etc.
Surface Treatment	Frosted, Acid Etched, Etc.
Product Name	Tempered Laminated Safety Glass
Hole	Round, Oblong, Etc.

Applications:

Security Tempered Laminated Safety Glass from RISE

Are you looking for a reliable security solution that can keep your family safe and secure? RISE's Tempered Laminated Safety Glass offers you the perfect solution. Designed and manufactured with the highest standards of safety and security in mind, this glass is the perfect choice for any home or office.

RISE's Tempered Laminated Safety Glass is certified by CE, ISO, and SGS, so you can trust that it is a quality product. It is available in a variety of colors, including clear, ultra clear, F-green, bronze, grey, and blue. It can be flat, curved, or bent, and can be frosted, acid etched, or other surface treatments. It is available in sizes up to 2440mm*3660mm and can be ordered in minimum quantities of one container.

Support and Services:

Tempered Laminated Safety Glass Technical Support and Service

Our technical support and service for Tempered Laminated Safety Glass is designed to ensure that our customers receive the highest quality products and services. We provide a comprehensive range of services, including:

Installation and maintenance of Tempered Laminated Safety Glass products

Troubleshooting and technical advice

Onsite and remote support

Product evaluation and testing

Training and technical seminars

Product warranties and extended service contracts

Our knowledgeable and experienced team is available to assist you with any questions or concerns you may have. We are dedicated to providing the highest quality customer service and support. If you have any additional questions, please do not hesitate to contact us.

Packing and Shipping:

Packaging and Shipping of Tempered Laminated Safety Glass

Tempered laminated safety glass is packaged and shipped in special cartons designed to reduce the risk of damage during transit. The cartons are constructed from a corrugated cardboard and are designed to provide the right amount of protection for the tempered laminated glass.

The cartons are labeled with appropriate shipping information, including the weight and dimensions of the glass, and the destination. All cartons should be inspected to ensure that they are in good condition before they are loaded onto the transport vehicle.

When shipping the tempered laminated safety glass, extra care should be taken to prevent the glass from shifting in the carton during transport. The cartons should be packed securely and stacked in an upright position. If the cartons are to be transported by air, they should be stowed in an upright position in the aircraft's cargo hold.

When unloading the tempered laminated safety glass, it is important to use the right lifting and handling equipment. The glass should be unloaded carefully, with heavy-duty straps or chains, and the cartons should be lowered gently to the ground.

FAQ:

Q: What is Tempered Laminated Safety Glass?

A: Tempered Laminated Safety Glass is a kind of deep processed glass which is produced by laminating two or more pieces of tempered glass with one or two layers of PVB interlayer. It is used to provide additional safety for customers.
