Company

Profile

we are well-known glass processing manufacturers producing different kinds of customized building glass, including tempered glass, laminated glass, insulated glass, decorative glass, etc. We offer one-stop services. Welcome to customizing your design!

Product Description

Reflective glass: a specialized glass product treated with a metallic or reflective coating, offering multiple benefits. It effectively controls solar heat gain, reducing the need for excessive cooling. Additionally, it minimizes glare, providing a comfortable and visually pleasing environment. Widely used in commercial buildings, facades, and modern architecture, reflective glass combines energy efficiency, privacy, and a sleek, contemporary aesthetic to enhance both functionality and design.
