## Product Description

### Temperature Laminated Flat Tempered Glass with Holes and Notches

#### Product Description:

Our Thermally-Tempered Laminated Glass is available in different PVB colors such as Clear, Grey, Red, White, and Bronze. You can choose which color suits your preference and style. This type of glass is also processed with frosted or acid-etched finishes, giving it a more elegant look.

Aside from its aesthetic value, our Thermally-Tempered Laminated Glass is also known for its safety features. It is designed to withstand high-impact forces, making it ideal for areas that are prone to natural disasters or break-ins. In addition, it is available with holes, which can be customized according to your needs.

Our Thermally-Tempered Laminated Glass is also available with different lamination options, including PVB, SGP, EVA, and more. This makes it possible to choose the ideal type of lamination that suits your needs, depending on the application.

Finally, the edge of our Thermally-Tempered Laminated Glass can be customized according to your preference. You can choose from flat, C-pencil, beveled, and other edge types. This ensures a seamless fit and a polished finish for your project.

In summary, if you're looking for a combination of strength, safety, and style, our Thermally-Tempered Laminated Glass is the perfect choice for you. With its different PVB colors, processed finishes, hole options, and lamination types, you can be sure that this product is tailored to your needs. So, what are you waiting for? Get in touch with us today and experience the benefits of our Thermally-Tempered Laminated Glass!

#### Features:

Product Name: Tempered Over Laminated Glass

Surface Hardness: High

Fire Resistance: High

Heat Resistance: High

PVB Color: Clear, Grey, Red, White, Bronze

Lamination: PVB, SGP, EVA, etc.

Tempered Laminated Glass, Thermally-Strengthened Laminated Glass, Toughened Laminated Glass are all available options for this product.

#### Technical Parameters:

Product Attribute	Technical Parameter
Product Name	Tempered Over Laminated Glass
Surface Hardness	High
Heat Resistance	High
Notches	Yes
PVB Color	Clear, Grey, Red, White, Bronze
Style	Tinted Glass Laminated
Impact Resistance	High
Sound Insulation	Excellent Sound Insulation
Surface Quality	Smooth, Clear, No Bubble, No Scratch, Etc.
Glass Shape	Flat, Curved, Etc.
Holes	Yes
Description	Thermally-Processed Laminated Glass, Thermally-Strengthened Laminated Glass, Toughened Laminated Glass

## Applications:

Rise Glass L-01 is a type of high-quality tempered over laminated glass that is suitable for various applications. It is produced in Qingdao, China, and meets CE CSI certification standards. The minimum order quantity is one crate, and the price is 6USD/SQM. Packaging details include wooden crates that are worthy of ocean and land carriage. Delivery time is 15 days, and payment terms require payment by T/T at sight. Supply ability is 8000SQM/DAY.

Rise Glass L-01 is designed with multi-layers, and the type of lamination used is PVB, SGP, EVA, or other materials upon request. This type of glass can be made in different shapes like flat or curved, depending on the application. It has high heat resistance, making it ideal for use in areas with high temperatures.

One of the notable features of Rise Glass L-01 is its ability to enhance security and safety. This is due to its thermally-tempered laminated glass design that makes it difficult to break and shatter. In case of breakage, the glass does not break into small pieces, thus reducing the risk of injury.

Applications of Rise Glass L-01 are vast and include areas such as airports, hospitals, banks, museums, and retail stores. It can also be used for various household applications like shower doors, glass railings, and glass floors.

Scenarios where Rise Glass L-01 can be used include areas where safety and security are paramount. For instance, it can be used in the construction of bulletproof windows, doors, and walls. It can also be used in areas where there is a high risk of natural disasters like hurricanes and earthquakes.

In conclusion, Rise Glass L-01 is a high-quality tempered over laminated glass that meets various certification standards. It is ideal for use in areas where safety and security are paramount and has various applications.

## Packing and Shipping:

### Product Packaging:

Each tempered over laminated glass will be individually wrapped in foam to prevent any damage during transportation.

The wrapped glass will be placed in a sturdy cardboard box with additional foam padding.

The box will be sealed with strong packaging tape to ensure the glass stays in place.

### Shipping:

Our shipping partner will ensure that the package is handled with utmost care and delivered to you in a timely manner.

You will be provided with a tracking number so you can keep an eye on your package during transit.

Please inspect the package upon delivery and report any damages immediately.

If you have any questions or concerns about the shipping process, please don't hesitate to contact us.
