Product Description

Product Description:

A) Two or three or more layers of glass "sandwiched" together with clear or colored PVB interlayer, laminated glass is the one glass that reconciles the aesthetic benefits of glass with a genuine concern for safety; Offering superior protection against glass breakage, as well as harmful solar rays and hazardous noise levels.

B) Due to the adhesive properties of the PVB, **RISE** takes careful precautions to prevent unwanted particles from attaching to the PVB during the adhesion process.

Features:

1. Extremely High Safety: The PVB interlayer withstands penetration from impact. Even if the glass cracks, splinters will adhere to the interlayer and not scatter. In comparison with other kinds of glass, laminated glass has much higher strength to resist shock, burglary, burst and bullets.
2. Energy-saving Building materials: PVB interlayer impedes the transmission of solar heat and reduces cooling loads.
3. Create Aesthetic Sense to Buildings: Laminated glass with a tinted interlayer will beautify the buildings and harmonize their appearances with surrounding views which meet the demand of architects.
4. Sound Control: PVB interlayer is an effective absorber of sound.
5. Ultraviolet Screening: The interlayer filters out ultraviolet rays and prevents the furniture and curtains from fading effect

Applications:

Curtain wall, shower door, windows, top lighting, balcony fencing, swimming pool fencing construction glass

Applications:

Rise Glass L-01 is a high-quality tempered laminated glass product, made in Qingdao, China. This glass product is perfect for various application scenarios, where safety and security are of paramount concern. The product is certified with CE CSI, ensuring that it meets all the necessary safety and quality standards.

The tempered laminated glass is designed to withstand high impact and pressure, making it ideal for use in high-risk areas, such as building facades, skylights, balconies, and glass roofs. The security overlay laminated glass is also perfect for use in banks, museums, and other high-security areas, where protection against break-ins and vandalism is essential.

The tempered laminated glass is available in clear, grey, red, white, and bronze PVB colors, making it highly customizable for different applications. The product is available in various styles, including tinted glass laminated, and can be edge finished with flat, C-pencil, beveled, or other custom designs to suit specific needs. The product can also be drilled with holes for mounting and installation purposes. The minimum order quantity for the Rise Glass L-01 is one crate, and the product is priced at 6USD/SQM. The glass is packaged in wooden crates that are worthy of ocean and land carriage, ensuring that the product reaches its destination safely. The delivery time for the product is 15 days, and payment is by T/T at sight.

The Rise Glass L-01 has a supply ability of 8000SQM/DAY, making it ideal for large projects that require high volumes of glass. The product comes with different lamination options, including PVB, SGP, EVA, and others, making it highly versatile and customizable for different applications.

In summary, the Rise Glass L-01 is an excellent tempered laminated glass product that is perfect for various application scenarios, where safety and security are of paramount importance. The product is customizable, highly durable, and versatile, making it an ideal choice for architects, builders, and designers who want to create safe and secure buildings and structures.

Customization:

Brand Name: Rise Glass
