## Product Description

### Product Description:

Our Tempered Laminated Safety Glass product is available in a range of thicknesses from 6.38mm to 12.38mm, making it suitable for a wide range of applications. The laminated glass is available in a variety of colors, including Clear, Ultra Clear, F-Green, Bronze, Grey, Blue, and more. This allows for customization to match the aesthetic of any project.

The maximum size of our Tempered Laminated Safety Glass is 2440mm by 3660mm, providing ample coverage for larger windows and doors. The glass can be cut and shaped to fit any opening, and the edges can be finished with a variety of notches, including C, U, and more.

Our Tempered Laminated Safety Glass is perfect for use in areas where security is a top priority. The laminated construction ensures that even if the glass is broken, the pieces will remain bonded together, reducing the risk of injury and preventing unauthorized access. This makes it an ideal choice for use in high-risk areas such as banks, schools, and government buildings.

In addition to its safety and security benefits, our Tempered Laminated Safety Glass also provides excellent sound insulation, making it a great choice for use in noisy environments. The laminated construction helps to absorb sound waves and reduce noise transmission, creating a quieter and more comfortable environment.

Overall, our Tempered Laminated Safety Glass is a versatile and durable product that provides excellent safety and security benefits in a wide range of applications. Whether you need to protect your business, your home, or your school, our laminated glass is a great choice.

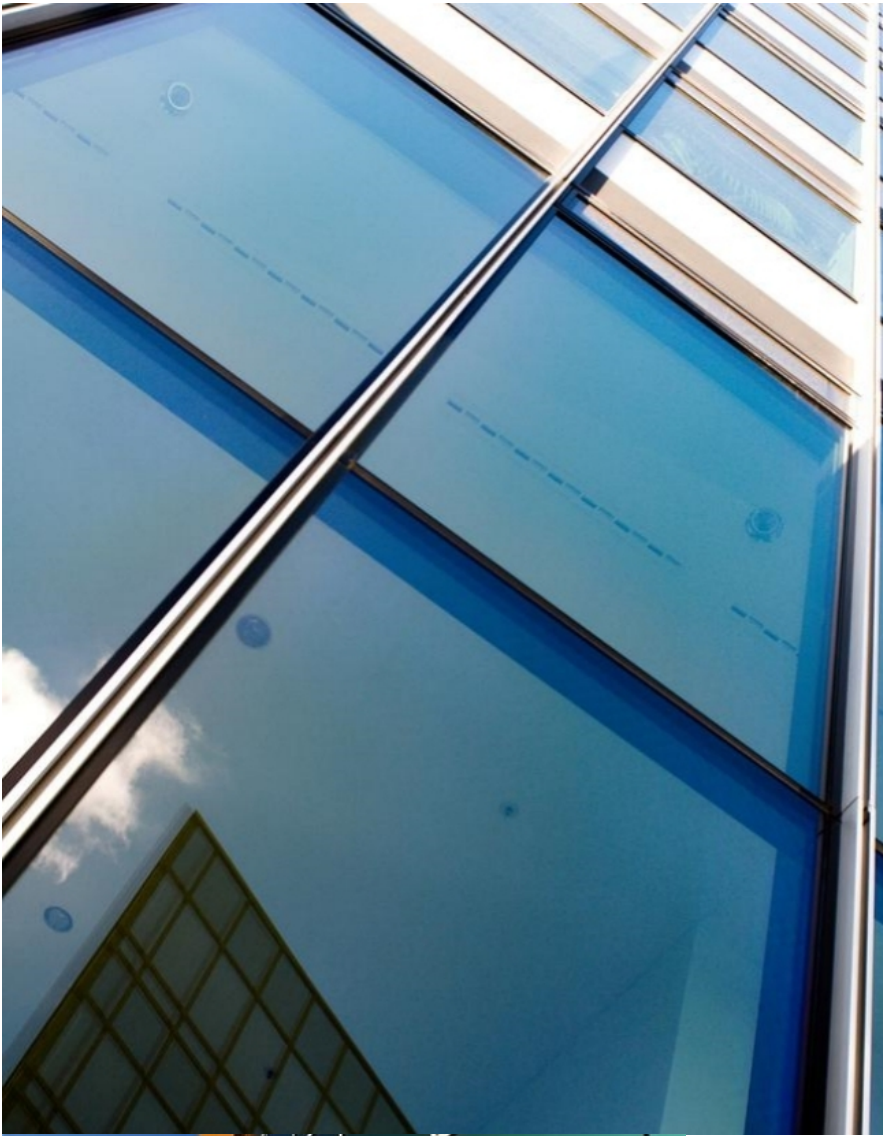

### Applications:

**Building:** Rise tempered laminated safety glass is an ideal product for use in building applications such as windows, doors, skylights, and curtain walls. Its superior strength and shatter-resistant properties make it an excellent choice for areas where safety is a top priority. Additionally, it can be customized to meet specific design requirements, including edge work, color, and hole shape.

**Automotive:** Rise tempered laminated safety glass is also commonly used in the automotive industry. It is used to make windshields, side windows, and rear windows, providing superior protection for drivers and passengers. Its ability to withstand impacts and resist shattering makes it an excellent choice for this application.

**Other Applications:** Rise tempered laminated safety glass can also be used in a variety of other applications where safety and durability are important. For example, it can be used in furniture, such as glass table tops or shelves, as well as in display cases and other retail applications. Its versatility and strength make it an excellent choice for a wide range of uses.

Overall, Rise tempered laminated safety glass is a high-quality product that offers superior strength, durability, and protection. Its double laminated glass construction, combined with its tempered properties, make it an excellent choice for a wide range of applications. With certifications from CE, ISO, and SGS, as well as a three-year warranty, customers can trust in the quality and reliability of this product. Minimum order quantity is one container, with a price range of USD1-99 per square meter, and a delivery time of 14 days. Payment can be made through T/T, L/C, D/A, D/P, Western Union, or MoneyGram. Supply ability is 500 tons per day, with packaging details in a wooden case. The product is available in various edge work options, such as polished or beveled, as well as in different colors, including clear, ultra clear, F-green, bronze, grey, blue, and more. Hole shape customization is also available.

## Packing and Shipping:

### Product Packaging:

The tempered laminated safety glass will be securely packaged in a wooden crate.

The wooden crate will be lined with foam to prevent any damage during transport.

The glass will be placed in between layers of protective padding to avoid any scratches or cracks.

The crate will be sealed and labeled with the necessary information for easy identification.

### Shipping:

The tempered laminated safety glass will be shipped via a trusted and reliable carrier.

The carrier will ensure that the crate is loaded and transported with care to avoid any damage during transit.

The delivery date and time will be communicated to the customer once the shipment is dispatched.

The customer will be required to sign for the delivery upon receipt.
