Product Description

Product Description:

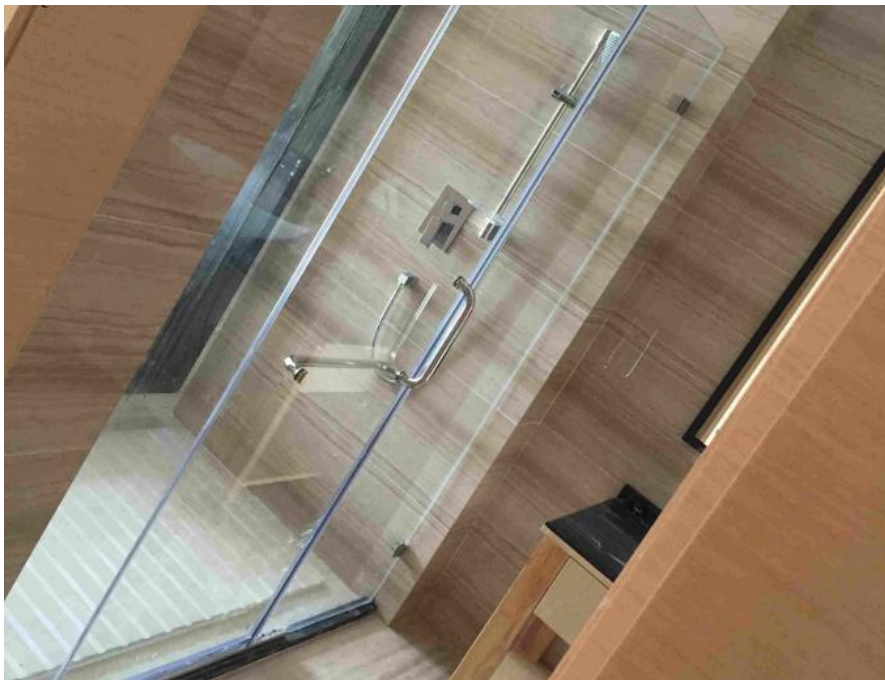

Laminated glass is composed of two or more pieces of glass, sandwiched between a layer or multiple layers of organic polymer intermediate film, through special high temperature precompression (or vacuum) and high temperature and high pressure process, so that the glass and intermediate film permanent bonding as one of the composite glass products.

Applications:

RISE laminated Glass is widely used in areas where a safety glass is needed.

Laminated glass is mainly used for windshields and bulletproof glass for automobiles and airplanes, as well as for building windows and doors with special safety requirements, partition walls, skylights for industrial plants, and some underwater projects. Therefore, such safety glass should be used in the lobby glass, awning, skylight, and atrium ceiling.

Packing and Shipping:

Product Packaging:

The tempered laminated safety glass will be wrapped in a protective material to prevent scratches and damage during transit.

The glass will then be placed in a sturdy cardboard box with additional cushioning material.

The box will be sealed with strong adhesive tape.

Shipping:

The glass will be shipped via a reliable courier service.

The shipping cost will be calculated based on the weight and destination of the glass.

The customer will be provided with a tracking number so they can monitor the progress of their shipment.

FAQ:

Here are some frequently asked questions and answers about RISE Tempered Laminated Safety Glass:

Q: What is the brand name of this product?

A: The brand name of this product is RISE.

Q: What is the model number of this product?

A: The model number of this product is Deep processed glass.

Q: Where is this product made?

A: This product is made in CHINA.

Q: What certifications does this product have?

A: This product is certified with CE, ISO, and SGS.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is 1 container.

Q: What is the price range of this product?

A: The price of this product ranges from USD1-99/SQM.

Q: How is this product packaged?

A: This product is packaged in a wooden case.

Q: How long does it take for delivery?

A: The delivery time for this product is 14 days.

Q: What are the payment terms for this product?

A: The payment terms for this product include T/T, L/C, D/A, D/P, Western Union, and MoneyGram.

Q: What is the supply ability of this product?

A: The supply ability of this product is 500 tons per day.
