## Product Description

### Product Description:

**Product Summary:** Frosted Tempered Glass is a type of glass that has been thermally-toughened to make it stronger and more durable than ordinary glass. This type of glass is ideal for decoration purposes as it provides a unique, frosted look while maintaining its strength and safety. Frosted Tempered Glass is also known as Frosted Temperature-hardened Glass or Frosted Toughened Glass.

**Transparency:** Frosted Tempered Glass is translucent, which means it allows light to pass through but is not completely clear. The frosted surface treatment creates a diffused effect, making it perfect for enhancing privacy or creating an aesthetic appeal.

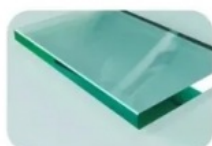

**Surface Treatment:** The frosted surface treatment of this glass adds a unique texture and appearance to the glass. The glass is frosted by either sandblasting, acid etching, or using a special frosting film. This surface treatment not only enhances the aesthetics of the glass but also provides an anti-glare effect, making it ideal for decoration purposes.

**Application:** Frosted Tempered Glass is a popular choice for decoration purposes, especially for creating a modern and sleek look. This glass is commonly used in interior design, such as for shower doors, partitions, and windows. It can also be used in exterior design, such as for balcony railings and glass facades.

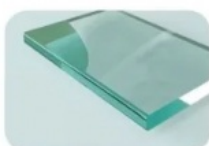

**Size:** Frosted Tempered Glass can be customized to fit any size requirements. This makes it versatile and ideal for various applications, whether it be for small decorative accents or large architectural projects.

### Processing Technology Before Tempering

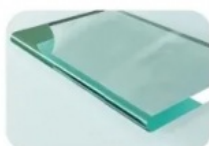

1. Edge processing method: polished edges, beveled edges, chamfered edges or grinding edges
2. Drilling holes
3. Cut out

Flat Edge

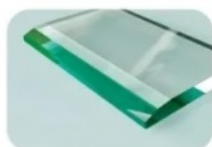

Polished Edge

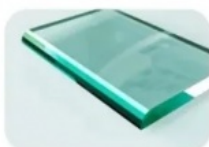

Pencil Edge

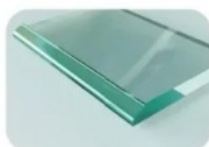

Bevel Edge

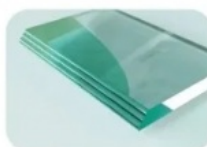

Double Bevel

Triple Bevel

OG Edge

Triple OG

### Applications:

RISE Frosted Tempered Glass is a high-quality deep processed glass product that is made in China and certified with CE, ISO, and SGS. This product is available in customized sizes with a flat edge finish and a thickness of 4mm.

The Frosted Tempered Glass product is perfect for decoration purposes. It can be used for a variety of application occasions and scenarios such as:

**Commercial Buildings:** The frosted glass can be used to create a stylish and modern look for office buildings, shopping malls, and other commercial buildings. The frosted glass provides privacy while still allowing natural light to enter the room.

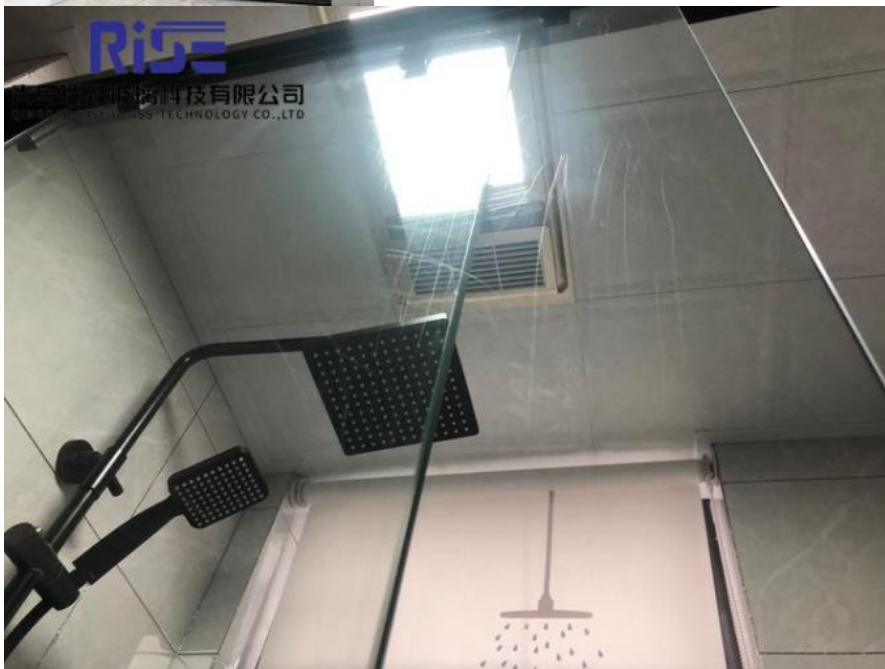

**Residential Buildings:** The frosted glass can be used for doors, windows, shower enclosures, and partitions in residential buildings. It provides privacy, safety, and a modern look to the interior design of the house.

**Furniture:** The frosted glass can be used to create unique and modern furniture pieces such as tables, cabinets, and shelves. The frosted glass adds a sleek and elegant touch to any room.

**Art:** The frosted glass is also perfect for artistic purposes. It can be used to create stunning sculptures, wall art, and other decorative pieces. The frosted glass provides a unique texture and visual effect that is perfect for artistic expression.

RISE Frosted Tempered Glass is a safety glass that is heat-strengthened and laminated for extra protection. It is available in Frosted Safety Laminated Glass and Frosted Laminated Safety Glass, which provides added protection against impact and breakage. This makes it a perfect product for areas that require extra safety measures such as schools, hospitals, and public buildings.

The Frosted Tempered Glass product comes in a wooden case packaging and has a minimum order quantity of 1 container. The price ranges from USD1-99/ depending on the quantity ordered. It has a supply ability of 500 tons per day and can be delivered within 7 days. Payment terms accepted include T/T, L/C, D/A, D/P, Western Union, and MoneyGram.
