## Product Description

### Product Description:

The flat edge of the Frosted Tempered Glass adds to its sleek and modern appearance, making it a popular choice for architects and designers. The 4mm thickness of the glass provides excellent durability and strength, making it resistant to breakage and shattering. This thickness also ensures that the glass can withstand extreme temperatures and weather conditions, making it ideal for use in both indoor and outdoor applications.

The Frosted Tempered Glass has a minimum order quantity of 100 pieces, making it a great choice for large-scale projects and commercial applications. The glass is translucent, allowing light to pass through while still providing privacy and reducing glare. This makes it a great choice for use in offices, conference rooms, and other areas where privacy is a concern.

With its strength, durability, and unique frosted surface treatment, the Frosted Tempered Glass is an excellent choice for a wide range of applications. Whether you are looking to add privacy to your home or office, or you need a durable and stylish glass for your commercial project, the Frosted Tempered Glass is an excellent choice.

### Applications:

RISE's Frosted Tempered Glass is a high-quality product made from chemically-strengthened glass and is processed using advanced technology. It is also known as Frosted Chemically-strengthened Glass, Frosted Temperature-hardened Glass, or Frosted Tempered Safety Glass. The glass is produced in China with CE, ISO, and SGS certification.

With a minimum order quantity of one container, the price of RISE's Frosted Tempered Glass ranges from USD 1-99 per square meter. The packaging details include wooden cases, and the delivery time is 7 days. Payment terms accepted include T/T, L/C, D/A, D/P, Western Union, and MoneyGram. RISE can supply up to 500 tons per day of Frosted Tempered Glass. The product is packaged in cartons, and the minimum order quantity is 100 pieces.

The frosted surface treatment of the glass makes it an excellent choice for privacy applications. As a result, it is appropriate for use in offices, meeting rooms, hospitals, and other settings where privacy is essential. The frosted surface treatment also makes the glass more aesthetically pleasing, making it ideal for use in interior design.

RISE's Frosted Tempered Glass is also durable and safe. It is resistant to breakage and can withstand high temperatures. It is an excellent choice for applications that require a high degree of safety, such as public areas and transportation hubs. The tempered safety glass also reduces the risk of injury in the event of breakage as it shatters into small pieces rather than large, sharp shards.

In conclusion, RISE's Frosted Tempered Glass is an excellent product for a variety of occasions and scenarios. Its high quality, durability, and safety make it suitable for use in public areas, transportation hubs, offices, meeting rooms, hospitals, and other settings where privacy is essential. Its frosted surface treatment also makes it an ideal choice for interior design applications.
