Quality conquers the world, Service achieves the future

## UV Protected Impact Clear Tempered Laminated Flat Glass With Customized Edges

### Our Product Introduction

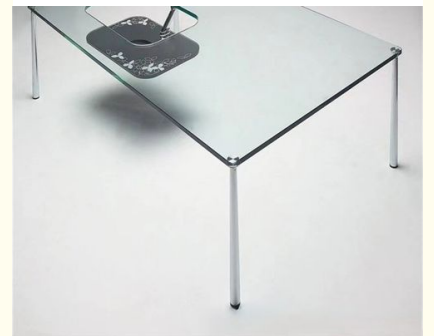

#### Basic Information

- Place of Origin: CHINA
- Brand Name: RISE
- Certification: CE, ISO, SGS
- Model Number: Deep processed glass
- Minimum Order Quantity: 1 container
- Price: USD1-99/
- Packaging Details: wooden case
- Delivery Time: 7 days
- Payment Terms: T/T, L/C, D/A, D/P, Western Union, MoneyGram
- Supply Ability: 500 Tons Per Day

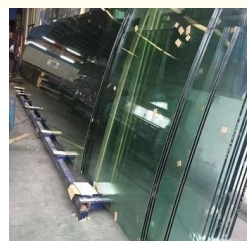

#### Product Specification

- Safety: High
- Edge Work: Flat Edge, Round Edge, Beveled Edge, Polished Edge, Etc.
- Fire Resistance: High
- Shape: Flat
- Hardness: High
- Heat Resistance: High
- Impact Resistance: High
- Thickness: 3mm-19mm
- Highlight: Clear Tempered Laminated Flat Glass, Customized Edges 1 4 clear laminated glass, Customized Edges clear tempered laminated glass

## Product Description

### Product Description:

#### PRODUCTION PROCESS:

In the production of flat glass, the molten silica-based mix is cooled slowly under carefully controlled conditions. This annealing procedure removes undesirable stresses from the glass. Cooling occurs in an annealing "lehr"; and then annealed glass is heated to a temperature near its softening point and forced to cool rapidly under carefully controlled conditions. The heat treating process produces highly desirable conditions of induced stress, which result in additional strength, resistance to thermal stress, and impact resistance.

#### FEATURE:

1. Safety, once broken, it splits into tiny harmless pieces.
2. Hardness, 4 times harder than ordinary float glass.
3. Special logo and pattern can be printed on tempered glass.
4. Outstanding performance in resisting thermal stress and wind-load.
5. Bear sudden temperature change of 220 centigrade degree.

### Applications:

Glass has been widely used as an optical material for its high transparency. In recent years, with the continuous advancement of glass technology and the continuous development of glass properties, the application field of glass has been expanding. As a kind of heat-resistant and impact-resistant glass and high softening temperature, toughened glass is an ideal window material for high temperature and high pressure pipes, vessels, liquid level gauges and instruments.

RISE tempered glass can avoid potential cuts and injuries as a result of broken glass. It is widely used in all doors (sliding, swing, etc.), windows, shower enclosures, partitions and elevator enclosures, curtain walls and storefronts, automotive windows shields, also widely used in chemical, scientific experiments and other fields.

As one of the most important China tempered glass manufacturers, RISE adheres to the concept of high efficiency and perfection to provide customers with quality products.

RISE Toughened Glass cut to size can avoid potential cuts and injuries as a result of broken glass.

- All doors (sliding, swing, etc.)
- Windows (side, stair and bathroom etc.)
- Curtain Walls and Storefronts
- Automotive windows shields
- Shower Enclosures

### Packing and Shipping:

#### Product Packaging:

The clear tempered laminated glass will be securely packed using foam padding and cardboard boxes.

Each glass panel will be individually wrapped and labeled to prevent damage during transport.

The packaging will also include handling instructions and safety precautions for the glass panels.

#### Shipping:

Shipping will be handled by a trusted courier service to ensure the safe delivery of the glass panels.

The shipping cost will be calculated based on the weight and volume of the package, as well as the destination.

Customers will be provided with a tracking number to monitor the status of their shipment.

The estimated delivery time will be communicated to the customer before the order is confirmed.

### FAQ:

#### Q1: What is the brand name of the tempered laminated glass product?

A1: The brand name of this product is RISE.

#### Q2: What is the model number of the tempered laminated glass product?

A2: The model number of this product is Deep processed glass.

#### Q3: From where is the tempered laminated glass product manufactured?

A3: This product is manufactured in China.

#### Q4: Does the tempered laminated glass product have any certifications?

A4: Yes, this product is CE, ISO, and SGS certified.

#### Q5: What is the minimum order quantity for the tempered laminated glass product and what are the payment terms?

A5: The minimum order quantity for this product is 1 container. The payment terms accepted are T/T, L/C, D/A, D/P, Western Union, and MoneyGram.

*Note: The price of the tempered laminated glass product is USD1-99/ , it is packaged in wooden cases, has a delivery*

time of 7 days, and has a supply ability of 500 tons per day.
